

Christian CHABANNON is a Professor of Medicine in Cell Biology at Aix Marseille Université (AMU) School of Medicine. He is a Physician and board-certified in Hematology and Medical Oncology. He practices at Institut Paoli-Calmettes, the Comprehensive Cancer Centre also in Marseille, France, where he serves as Head and Qualified Person of the Cell Collection and Cell Processing Facilities. Christian Chabannon has a long-standing interest in hematopoietic stem cell biology and transplantation, and in innovative cellular and gene therapies that stem from the practice of hematopoietic cell transplantations. He is actively involved in clinical and translational research in relation to his medical interests. Christian Chabannon has served in several positions at the European society for Blood and Marrow Transplantation (EBMT), including the current Chairmanship of the Cell Therapy & Immunobiology Working Party (CTIWP).
